SUMMARY

Aspiring web developer passionate about creating innovative and user-friendly digital experiences. Capable in front-end and back-end development with a keen eye for design aesthetics and functionality. Eager to collaborate with teams to create impactful solutions that make a difference.

RELEVANT EXPERIENCE

JR WEB DEVELOPER

YWEB CA

YWCA of Madison

- Attending lectures and coding sessions to acquire foundational knowledge in HTML, CSS, JavaScript and React.
- Engaging in hands-on coding exercises and projects to apply concepts and enhance proficiency in front-end development techniques.
- Collaborating with peers on group projects to promote teamwork, communication and problem-solving abilities.
- Seeking out additional resources to supplement classroom learning and explore advanced concepts.
- Building a personal portfolio website to showcase my projects and demonstrate knowledge in front-end development.

ASSISTANT TEACHER - CHILDRENS CLASSES

Madison, WI

- Follow curriculum that focuses on moral and spiritual education for children.
- Plan for future classes, collaborate and consult with lead instructors.
- Teaching virtues and encouraging children to practice these virtues in their daily lives.
- Engaging children in acts of service and community-building activities.
- Incorporating arts and crafts activities to reinforce lessons and themes.
- Teaching children about the importance of unity, tolerance, and respect for diversity.
- Helping children develop qualities such as resilience, patience, and perseverance.

Dear Ashlie Crooks,

I am writing to express my keen interest in the software development internship position at Ten Forward, as advertised on your company website. As a current student in the YWeb Career Academy, I am enthusiastic about the opportunity to apply my knowledge and technical skills in a real-world setting.

Throughout my time in YWebCA, I have cultivated a foundation in software development principles and practices. I have had hands-on experience with HTML, CSS, JavaScript and React. I have an immense interest in learning new languages and have begun learning about algorithms, PHP and MySQL at my own liberty.

What particularly excites me about Ten Forward is your commitment to improving your community through technologies. This mission resonates strongly with me as I feel a strong responsibility to use my knowledge in software development for the betterment of humanity. Moreover, I am highly adaptable and thrive in collaborative environments.

I am confident that my passion for software development, coupled with my drive for continuous learning, make me a strong candidate for this internship opportunity. Thank you for your consideration. I can be reached at (214)791-7787 or via email at k.mancillash@gmail.com.

Warmest regards,

Kenia Mancillas-Herrera
